Dear Parents/Guardians

5/1/18

We are still studying our Spring-Life Cycle unit. We have already explored various life cycle, such as chickens, butterflies, and ladybugs. We will continue by examining a few other animals and creatures. The classroom critters have arrived, so please take a look at our ladybug larva, praying mantis, and caterpillar.

Thank you for coming to parent teacher conferences. It is always so awesome to see the amount of growth each child has made during the year. If you still need to have a conference this Spring, I would be more than happy to set up an appointment for you before or after class. I want to thank you for all that you have done this year for our center and your children.

We have about three weeks left in the school year. Our Graduation is on May 21st at Summit in the Village Center. The morning class will be at 10:30am and the afternoon class will be 2:30pm.

It is getting nice out, so please apply sunblock to your child before class. We are going to walk to McMurray Park on May 17th. We would love to have parents come with us on this adventure. If the weather is cooperative, we will be having a water fun day on the last day of school, May 22nd!

Shandra, Trina, and Bridget
